Shame on you, shame on me

Lord he took all our shame and pain, and set men free

And I ve got that fire on the mountain

Fire in my soul

It s been a long time coming, long time

And ready to go

I m stepping out the door

Doing what feels right

Following my Lord, through the darkest night

And when the path gets narrow

I ll follow him

And when the world comes down, around

I ll follow him

C **G**
He said, sing it on the mountain

Am
Or in the valley low

Em
He s my God, and he never let me go

Am

Or fight in valley low
