

Hidden Away

Josh Groban

C **F** **C**
Over mountains and sky blue seas
C **F** **C**
On great circles will you watch for me?
C **F** **C**
The sweetest feeling I've got inside
C **F** **C**
I just can't wait to get lost in your eyes

G **Am** **F**
And all these words that you meant to say
C **Am**
Held in silence day after day
G **Am** **F**
Words of kindness that our poor hearts crave
C **F** **C**
Please don't keep them hidden away

Am **G**
Sing it out so I can finally breathe in,
F
I can take in all the same
Am **G**
Holdnig out for something i believe in
F
All I really need today
Dm
I want to free your heart
Am
I want to see your heart
F **C**
Please don't keep your heart hidden away

C **F** **C**
You're a wonder, how bright you shine
C **F** **C**
A flickering candle in a short lifetime
C **F** **C**
A secret dreamer that never shows
C **F** **C**
If no one sees you then nobody knows

G **Am** **F**
And all these words you were meant to say

Held in silence day after day
