

Hidden Away  
Josh Groban

Over mountains and sky blue seas  
On great circles will you watch for me?  
The sweetest feeling I've got inside  
I just can't wait to get lost in your eyes  
And all these words that you meant to say  
Held in silence day after day  
Words of kindness that our poor hearts crave  
Please don't keep them hidden away

Sing it out so I can finally breathe in,  
I can take in all the same  
Holdnig out for something i believe in  
All I really need today  
I want to free your heart  
I want to see your heart  
Please don't keep your heart hidden away

You're a wonder, how bright you shine  
A flickering candle in a short lifetime  
A secret dreamer that never shows  
If no one sees you then nobody knows

And all these words you were meant to say  
Held in silence day after day

Words of kindness that our poor hearts crave
