MACHINE

This song is a bit harmonically strange; during the verses, different synthesizers and keyboards appear, but the chord that is played is the same: a Cm with very little variation. Thus, it can be a little boring to play this song alone, so you'll have to feature a way to change it a bit.

STANDARD TUNING - CAPO 3

INTRO: **Am**

VERSE:

Am

Rising above tension below
Learn from the in-between
Blinded by trust, asleep to the truth
Awakened by disbelief
Somewhere I found strength in my soul
Still you refuse to see

CHORUS:

F G Am
Are you sure I'm not all right?
F G Am
Lately I've been feeling fine!
F C F C G Em
Every lifeline leads its own way to the heavens
F C F C G
But I've seen you run in circles, unforgiven
Em7
Is there anything in this world that can make you stop?!

Am

Oh, you're a machine!

Am

A world of your own
Hollow inside
Careful when worlds collide

With all it can hold
Carry it on with pride

Are you sure I m not all right?
F G Am
Cause lately I ve been feeling fine!
