Standing on the rails
Storming against you
Standing by the car before the words already let go

Stand before us
Pounding at your door
And we fall as we lie we all know
[Chorus]
  Soon I lay you down in a momentary glow
Suddenly you go and I m not beyond her doubt

E
Would you let a wood slinger let you go
                      F#m
Following the lay of a land unknown
Shiver in the car when your dead things go
Cause you would never say I m a life foregone
[Chorus]
D
                           E
    So I lay her down in a momentary glow
                F#m
And suddenly she flies cause I m so beyond her doubt
                 F#m
She will leave in awe when a glow beings to go
                      A
                F#m
                                              F#m
She will lay for ghosts in that momentary glow
                   F#m
Too late to go
                   F#m
           E
Too late to fly
           Е
                   F#m
                           Bm
Too late to fly
[Outro]
   So would you let a wood slinger let you go
Following the lay of a land unknown
Shiver in the car when your dead things go
 Cause you would never say I m a life foregone
