

New Years Song

Josh Pyke

Capo 2 or whatever suits your voice.

Listen to the song to work out the picking technique

Verse 1

C **G**
If youâ€™re freezing on your left side
Am **F**
And youâ€™re boiling on your right side
F **G** **C**
Then I guess you might be warm upon the line
F **G** **Am**
There are many ways one can divide a life
C
And Iâ€™ve got mine

Verse 2 (same as verse 1)

I was flying home and I
Saw the sunset from the sky
I saw the dark come spooning down upon the land
And I thought about the distance we all cover
And it made me sad

Chorus

F **G**
And as the old year took a bow
C
And joined the setting sun
F **G**
It comes around again
C
Like a refrain
F **G**
And we all sing along
C
And think of things we shouldâ€™ve done
F **G** **C**
Till one year when the new year never came

Verse 3

Little comfort, little comfort
Iâ€™m afraid youâ€™re not enough
Iâ€™ve had some learning both unwelcome and unkind
And it seems thereâ€™s but one story told
And then re-worked all throughout time

Verse 4

Are you a good one or a cruel one
It is just the laws that make us bad
What can we do to measure where we stand
Well I judge myself by what I give to someone else
So Iâ€™ll know where I am

Chorus 2

Donâ€™t let that sense of urgency betray you in the dark
The rustle of a curtainâ€™s not a sign
Donâ€™t frame this picture now
As some kind of closing remark
And most of all stay warm upon the line
Most of all stay warm upon the line
Itâ€™s best if you stay warm upon the line
