He s your pity, your pain, he s your fear

C **D** **G** **Em**
Please remember my son, what I ve taught you ain t much

G **D** **G**
It is God who will take you from here

Well I cannot deny that the Lord might exist
But he ain t the problem to answers we missed
Just don t base your whole life off of one bad disguise
You never know behind which he s looking

And if it is comfort or peace, in religion you seek
And it makes you feel whole then it worked, don t ya think
You can argue and scream, paint each other obsence
But I have recently known, that it don t matter

Please beware
In a mysterious way, God is here
Please beware
He s your pity, your pain, he s your fear
Please remember my son, what I ve taught you ain t much
It is God who will take you from here
