

**Mystic**

**Joshua James**

From his From the Top of Willamette Mountain album.

You can play it in standard tuning with the chords, but the ringing D bass note is

quite prominent on the recording. Avoid playing the high e string.

**E:** 000230

**A:** 5X0030

**E/F#:** 4X0030

**C#m:** X24432

**B:** X02220

**E**

There is a mystic in the mountain, high above the great salt lake  
Dancing in the heavens, far below his golden gates

**A E A E**

He s looking at our cars below, laughing at our rock and roll

**E**

So I found a little woman, thought that I could change her name  
She had the colour of the city and the fire of the country flame

**A E A C#m B E**

So I hid my body down below, hoping that my skin wont show

**A-E/F#-E**

**E**

Mystic from the mountain, in the end what did you say wed find  
A promise from a pamphlet, a crucifixion on your highway sign

**A E A C#m B**

But I sold you for a cigarette, does it make you want to love me less

**C#m A B E**

And if I dont believe. What does that mean?

**C#m A B E**

And when I die alone, who will eat my soul

**A E A E**

In the cave of God, while the angels watch

**A E C#m B E**

Theres a manic scream, hallelujah

Babe I know I lost you, moment you could finally see  
The part of me Id hidden, far below our leather seats  
If I could make you understand the empty that I tried fill  
Id crucify my body, leave the pieces at your mystics heels

But I sold you for a cigarette  
I hope youd sell me off for less

And if we dont agree  
What does that leave  
And when you die alone  
I will eat your soul

In the cave of God  
While the angels watch  
Theres a manic scream hallelujah
