**B**                    **E**                                    **B (B, B/Bb)**  
I like the way youâ€™re not afraid  
**E**                                    **B**                                    **D#m**  
Youâ€™ve got the world planned in your mind  
**B**                                    **E**                                    **B**  
People say you cannot do it  
                                 **G#m**       **F#**                                    **B**  
But they donâ€™t know a friend like you

The girl you love has gone away  
Still too young to know her heart  
Sheâ€™ll return her love renewed  
Cause sheâ€™ll never find a friend like you

When I had no one to call  
All the world had shut me down  
I showed up at your door so blue  
Thank God I had a friend like you

Many times Iâ€™ve gone without  
A home, a meal, a pair of shoes  
If you had three youâ€™d give me two  
There ain t no other friend like you.
