**Am**                **F**        **C**        **G**  
The bus is here til three  
**Am**    **F**            **C**            **G**  
So we got an hour to see,  
          **Am**        **F**                **C**                    **G**  
The ones tonight, the ones with the light  
          **Am F C G**  
That keeps shining,  
**Am**                **F**        **C**            **G**  
She makes her mark; it s clear,  
**Am**                **F**        **C**            **G**  
Checks herself, feeds the fear  
          **Am**        **F**                **C**                    **G**  
Of the one tonight, the one with the light  
          **Am F C G**  
That keeps shining,

**F**                **E**                **Am**        **G**  
Johnny puts the whiskey on the table,  
**F**                **E**                **Am**        **G**  
Calling out to everyone who s able.

**C**            **C/B**        **Am**  
And we will never change,  
          **F**            **G**  
The way we are here,  
          **C**                            **C/B**        **Am**  
I like that we are kinda strange,  
          **C**                **G**  
So won t you stay near?

**Am F C G** (x4)

The taxi s is filled with five,  
He thanks the world he s alive,  
Alive tonight, the beauty is honestly  
Blinding,  
So take a look around,  
Almost lost we ve finally found,

The ones tonight, the ones with the light,  
that keep shining,

Johnny puts the whiskey on the table,  
Calling out to anyone who s able.

And we will never change,  
The way we are here,  
I like that we are kinda strange,  
So won t you stay near?

We will never change,
