

Dont Know How
Joss Stone

Intro : **A#m**

A#m

You caught my eye
And out of nowhere you appeared
By surprise and it s not like me but certainly, I

D#m **A#m**

I heard myself calling for you

A#m

Could it be fate
I m feeling butterflies
And I can t escape

D#m

And it s like a rush that s coming over me

A#m

The sight of you just takes me away

[Chorus]

A#m

Boy you re so fine
And I wanna tell ya so
I m much too shy

D#m

Wanna make you mine

A#m

But I don t know how

A#m

Got so much time
Your attitude, everything
You make me smile

D#m

Think I m falling in deep for no reason why

A#m

I can t help myself yeah yeah

A#m

Friends think I m wrong
For being head over heels
I should be strong

D#m

Should I stay and deal with it

A#m

Or should I just let go

[Chorus (extended):]

A#m

Feeling crazy my heart beats racing now
I can't fight it

D#m

Got to make you mine

A#m

But I don't know how

A#m

Baby let me know what's up now
Ya got to show me some how, how you feel

D#m

Cause I can't take it no more

A#m

I really need to know what's good with you boy

[Chorus (extended)]
