

On The Rise
Joss Whedon

(Dr. Horrible)

C#m intro

C#m

Any dolt with half a brain
Can see that human kind has gone insane
To the point where i don t know
If I ll upset the status quo
If I throw poison in the water main.

A **C#m**

Listen close to everybody s heart

A **C#m**

And hear that breaking sound

A **C#m**

Hopes and dreams are shattering apart

G#m **B**

And crashing to the ground.

C#m **A**

I cannot believe my eyes

C#m **B** **A**

How the world s filled with filth and lies

C#m **B**

But it s plain to see

F#/G# **A** **C#m**

Evil inside of me is on the rise.

(Penny)

E

Look around
We re living with the lost and found.
Just when you feel you ve almost drowned
You find yourself on solid ground

F#m **C#m**

And you believe there s good in everybody s heart

F#m **C#m**

Keep it safe and sound.

F#m **C#m**

With hope you can do your part

B

To turn a life around

E **A**

I cannot believe my eyes

E **B** **A**

Is the world finally growing wise?

C#m **B**

Cause it seems to me

F#/G# **A** **C#m**

Some kind of harmony is on the rise.

(Both: Dr Horrible first line, Penny second)

E

Anyone with half a brain

Take it slow

E

Could spend their whole life howling in pain

He looks at me and seems to know

E

Cause the dark is everywhere And Penny doesn't seem to care

The things that I'm afraid to show And suddenly

E

That soon the dark in me is all that will remain

I feel this glow

F#m **C#m**

Listen close to everybody's heart

And I believe there's good in everybody's heart

F#m **C#m**

And hear that breaking sound

Keep it safe and sound

F#m **C#m**

Hopes and dreams are shattering apart

With hope you can do your part

G# **B**

And crashing to the ground.

To turn a life around.

E **A**
I cannot believe my eyes
I cannot believe my eyes

E **B** **A**
How the world s filled with filth and lies
How the world s finally growing wise

C#m **B**
But it s plain to see
And it s plain to see

F#/G# **A**
Evil inside of me
Rapture inside of me

C#m
is on the rise...
is on the rise...

C#m outro
