

Atrocity Exhibition
Joy Division

These are the main riffs in the song. God knows what the producer has done to make them so crazy on the Album lol

Doesn't seem a lot, but this is all the guitar does in the song, except for the solo seems to be Hooky (Who played Guitar on this song) going crazy with a slide and a whammy which is impossible to tab unfortunately ?¼ It's easiest to hear the guitar on the live that appears on "Heart and Soul" (CD4).
