You say things you don't mean too damn convincingly  
Am G  
You take it back and then expect that it won't stick to me  
F C  
Was just an argument, no ounce of truth in it  
Am G  
I wanna believe you but you came off so articulate

F C Am  
I've tried walking away in my head  
G F C  
For a moment it's peaceful then it scares me to death.....  
G  
So I guess

F C  
Sometimes tension brings us closer  
Am G  
Is it wrong, I just wanna hold you when it's over?  
F C  
I get cold but you get colder  
Am G  
Is it wrong, I just wanna hold you when it's over?  
F C  
You're not the things you say, you're not the things you do

These are the lies I tell myself to stay with you  
F F G

Am F  
The good that's left in us, it still feels good enough  
C G/B  
Set us on fire and I'll find a way to hold us up
