**G**                    **C**  
Who d have thought  
   **Am7-Am-FM7**  
This is how the pieces fit  
**Am7**  
You and I  
                                 **FM7**                    **G**  
Shouldn t even try making sense of it  
**G**    **C**  
I forgot  
                                 **Am7 - Am - FM7**  
How we ever came this far  
**Am7**    **FM7**  
I believe we had reasons  
                                 **G**    **Am7-Am-FM7**  
But I don t know what they are  
                 **Bm7**                    **A/D**                    **B/Eb-G**  
So blame it on my heart, oh

Chorus:

**Am7**                    **C**                    **G**  
Love moves in mysterious ways  
                 **Am7**                    **Bm7**  
It s always so surprising  
                 **Am7**                    **C**                    **D-G**  
When love appears over the horizon  
                 **Am7**                    **Bm7**  
I ll love you for the rest of my days  
                 **Am7**                    **Bm7**  
But still, it s a mystery of  
**Am7**    **Bm7**  
How you ever came to me  
                 **Am7**

Which only proves
