[Intro]
Bm   G   Em   A

[Verse 1]
Bm
I heard you tonight
        G
Like a line of a melody
      Em
And I heard you tonight
A   **Bm**
 So I ll toast to the times
             G
Playing out in a cemetery
          Em
Yeah I ll toast to the times
A   **Bm**
   Cause I m falling for every sign
                       G   **Em**
Calling out for you, calling out for me
                A   **Bm**
Chasing the sounds till I have you by my side
                    G   **Em**
Calling out for you, calling out for me
          A
Till we rewind

[Pre-Chorus]
            Bm
You ll be my sad song, sad song
G
Got you on the beat
        Em   **A**
Play my sad song into the night
              Bm
You ll be my sad song, sad song
G
Hardest to believe
          Em   **A**
That my sad song s all that remains

[Chorus]
                    Bm

```
You got me on the line
     G              Em      A
(To find, yeah, to find)
                    Bm
You got me on the line
     G              Em      A
(To find, yeah, to find)
                      Bm
You got me on the line
G            Em
  Me on the line

[Verse 2]
A           Bm
  Some say love never dies
       G
But a bullet went into me
         Em
And I ve lost every fight
A           Bm
  One more drink for the ride
        G
Pull me out of my misery
          Em
And I ll fall to the fire
A                               Bm
  Cause I m falling for every sign
                  G                 Em
Calling out for you, calling out for me
                A                      Bm
Chasing the sounds till I have you by my side
                G           Em
Calling out for you, calling out for me
          A
Till we rewind
