Ill Be There
Julie Anne San Jose

[Intro]

C# G# F# G#

[Verse 1]

C#   **G#**
First time I laid my eyes on someone like you
C#   **G#**
I canâ€™t forget the hour, that moment with you
C#   **F#**   **C#**   **Bbm**
Then I have realized, love is growing deep inside
C#   **F#**   **G#**
I feel the beating of my heart

[Chorus]

      C#   **G#**   **F#**   **G#**
Coz every day, every night, I keep looking at the skies
      C#   **G#**   **F#**   **G#**
And Ill pray that someday you will wake up in my arms
     Bbm
And love will never end
F#   **Bbm**   **F#**   **Bbm**
We belong together, always and forever
F#   **G#**   **C#**
Call my name and Iâ€™ll be there. . . . .

[Verse 2]
(same chords)

Spending my days and nights just thinking if you
How you make me wanna smile with the things that you do
When will I hear you say, love is coming on your way
And that you start to feel the same

Coz every day, every night, I keep looking at the skies
And Ill pray that someday you will wake up in my arms
And love will never end
We belong together, always and forever
Call my name and Iâ€™ll be there

[Chorus]

```
       C#          G#           F#                G#

       C#          G#          F#                G#
And Ill pray that someday you will wake up in my arms
     Bbm
And love will never end
