Verse 1:

A **G A**
Blow whistle blow
A **G A** (pattern continued)
Down you go alive
The cage is falling
Like a comet in the night

Beads of sweat glisten
In the underground light
Smoulder boudler
Rock reeks fumes
Songs of the outlands
Change colour when shift is due
And you ve grown a little older
Seen bone blown smoking blue!

Chorus

Verse 2:

A G A

Grow city grow
Ten thousand men below
Bleed the burning womb
Make the sun-rock show
In the wider horizon
Where a million lifetimes flow
And you know the secret
That glitters and glues the best
Like the feathers of a dead bird
That feather the next bird s nest
Jwanasibeki!
Tomorro, tomorro, tomorro

A

Wo-hum-m-wo-hum!

G

Wo-hum-wo-lo-lo-ma!

Chorus

outro (take chords from chorus):

Can you hear, can you hear me
Can you hear, can you hear me
In the wider horizon
There s a life-song
All my life gone
In a mine song
I shake the world beneath your feet
cause I m just working a little bit
