Verse 1:

**B** **A B**  
Blow whistle blow  
**B** **A B** (pattern continued)  
Down you go alive  
The cage is falling  
Like a comet in the night

Beads of sweat glisten  
In the underground light  
Smoulder boudler  
Rock reeks fumes  
Songs of the outlands  
Change colour when shift is due  
And you ve grown a little older  
Seen bone blown smoking blue!

Chorus

Verse 2:

**B            A B**

Grow city grow  
Ten thousand men below  
Bleed the burning womb  
Make the sun-rock show  
In the wider horizon  
Where a million lifetimes flow  
And you know the secret  
That glitters and glues the best  
Like the feathers of a dead bird  
That feather the next bird s nest  
Jwanasibeki!  
Tomorro, tomorro, tomorro

**B**

Wo-hum-m-wo-hum!

**A**

Wo-hum-wo-lo-lo-ma!

Chorus

outro (take chords from chorus):

Can you hear, can you hear me  
Can you hear, can you hear me  
In the wider horizon  
There s a life-song  
All my life gone  
In a mine song  
I shake the world beneath your feet  
cause I m just working a little bit
