

**Float Away**  
**July For Kings**

Band: July For Kings  
Song Title: Float Away

-----  
Tuning: Standard  
Capo: 2nd Fret

Notes:

For ease I just used basic chords, but throughout the song they play variations of D, A, Em and G (A7, A/D, etc) but it still sounds pretty good with just the basics. Just play around with them and you ll be golden.
