Verse 1: **G D/F# Em7 Cadd9**

Rose is sleeping in the park now

When I see her I cry

She used to have the world in her hands,

Now all sheâ€™s got is high

Rose is watching all her teeth fall out

I guess you could say she lost her smile

I did all I could to get her out,

Now watching her die

Chorus: **Am C**

Oh, I remember, Mexico, we sailed our ship, did a lot of blow

I stayed up, till the morning light, I got fucked up, I got into some fights

I knew, I looked in her eyes, it was over, she cried

G D/F# Em7 Cadd9

I donâ€™t love you no more

G D/F# Em7 Cadd9

I donâ€™t need you no more

G D/F# Em7 Cadd9

Hell I wont be, knocking down your door

Am C **G D/F# Em7 Cadd9**

She lied, she lied, she tried.

Verse 2: **G D/F# Em7 Cadd9**

Rose left me on a Monday night

Said sheâ€™d had all she could stand

I told her she should get some help

Said she just needs another gram

As she dug into a deeper hole,

Man you could see her sinkin down

The stars left the sky for her eyes

Held on till she drowned

Chorus: **Am C**

Oh, I remember, Mexico, we sailed our ship, did a lot of blow

I stayed up, till the morning light, I got fucked up, I got into some fights

I knew, I looked in her eyes, it was over, she cried

G D/F# Em7 Cadd9

I donâ€™t love you no more

G D/F# Em7 Cadd9

I donâ€™t need you no more

G D/F# Em7 Cadd9

Hell I wont be, knocking down your door

Am C Am C

G D/F# Em7 Cadd9

Tonight, tonight, tonight, I just walked by.
