D G A

If I show you my penis
Would you show me your boobs
If you lose the shirt and bracket
I'll show you my tackle too

See theres something I need to know girl
Something specific I cant see
There has to be some differential
Between the halo and the pea

Chorus 1

Because its all about the nipple
Not really all about the boob
They stand proud from the areolas
Staring straight up at the moon

I just dont care if youre a D cup
And I dont care if youre an "A".
As long as they're not at your knee caps
Or pointing back the other way

According to my indepth research
They come in many different shades
Dark brown, light brown, pink, tan, and ruby
I hear in Kazakstan they're beige.

CHORUS 1

Bridge:

D A E A

If youve got mosquito bites, or theyre slanted right, or fried eggs on a nail
Pancake nips, or armpit tit, or ski slopes like in Veil (Colorado)
It doesnt really matter much, us guys just want one thing
Your nipples to be hard and round,
And stand out from the ring!

Chorus 2

Because its all about the nipple
Not really all about the boob
They stand proud from the areolas
Staring straight up at the moon

So ladies if you heed my message
Iâ€™ll tell you now that this is true
You know its all about the nipple
Not really much about the boob.
