[Verse 1]

**E** **D**  
Bitter sweet thing, could this be a dream  
**D** **A** **E**  
Or just the same nightmare that keeps me awake  
**E** **D**  
Feel it in my brain, tall shot of pain  
**D** **A** **E**  
Pour a little up now, for the love that we made  
**E** **D**  
I feel it in the morning, you're still here in the morning  
**D** **A** **E**  
I see you, but you gone. Telephone the doctor, I'm not okay  
**E** **D**  
The bottom of the bottle, to fill this empty heart up  
**D**  
A thousand proof don't change the truth  
**A** **E**  
I dive in, but I can't

[Chorus]

**E** **D**  
I can't drink you away  
**D**  
I've tried Jack, I've tried Jim,  
**A** **E**  
I've tried all of his friends  
**E** **D**  
But I can't drink you away  
**D** **A** **E**  
All these rocks, I can't swim out of this skin I'm living in, say  
**E** **D** **D**

Now tell me, baby, don t they make a medicine for heart break

**A E D**  
Ohh, tell me baby, oh yeah

**D A E**  
Now don t they make a medicine for heart break

[Verse 2]

**E A**

When the sun comes up tomorrow

**E B**  
You can find me doing the same

Cause I just can t forget

**A**  
The way we turned out this bed

And now the only thing that sleeps here is a ghost of you instead
