**Pair Of Wings**
**Justin Timberlake**

[INTRO]
**F**

[CHORUS]
**F**                              **F/C**
If I had a pair of wings
     **A#**                                **A#m**
Iâ€™d pick you and fly you far away form here
        **Dm**                              **G**                                **C**
**C7**
And youâ€™d put your worries upon my shoulders, my dear
        **Dm**
Now I know I canâ€™t save you
                    **F**
From the troubles of the world
   **Em**                                        **A**
And this sounds like such a silly thing
      **A#**                        **C**
But if I could fly you away
                              **A#m**   **F**
With a big old pair of wings

**F**                              **F/C**
And if I had a pair of wings
      **A#**                                        **A#m**
Iâ€™d pick you and fly you far away form here
        **Dm**                              **G**                                    **C**
      **C7**
And weâ€™d fly so high up in the sky Where the stars are so clear
        **Dm**
And then I could save you
                    **F**
From the troubles of the world
        **Em**                                              **A**
And all youâ€™d have to pack is your heart to bring
          **A#**
And there we are, you and me
  **C**                                            **A#m**   **F**
Flying on a big olâ€™ pair of wings

[VERSE]
**Dm**                          **A**              **C**                              **G**
We keep getting older, the world keeps getting colder
**A#m**                                  **D#**
Tell me when did we lose our way?
**Dm**                                          **G**                              **C C7**
Itâ€™s so hard not to lose your mind in such crazy days

```
      Dm                                    F
And if I had one wish I know what Iâ€™d wish for
Em                                                 A
Thereâ€™s only one thing thatâ€™ll do
A#                    C                                        A#m    F
Iâ€™ll fly away on this pair of wings with you

[CHORUS]
F                             F/C
If I had a pair of wings
A#                                  A#m
Iâ€™d scoop you up weâ€™d fly away and disappear
       Dm                                          G
  C        C7
And you could put your worries upon my shoulders, my dear
         Dm
Now I know I canâ€™t save you
                     F
From the troubles of the world
   Em                                            A
I know this sounds like such a silly thing
     A#                         C
But if I could I d fly you away
                                  A#m     F
On a big old pair of wings
```
