One More Night In Brooklyn - Justin Townes Earle - Harlem River Blues  
Standard Tuning

**A     D     E A D E**

Tired of laying in bed, listening to the water run

**A     D     E     A D E**

Ceiling's falling in, Baby's dress is covered in dust

**D     A     D           E**

So I don't care what it costs, Baby dust that old thing off

**A           D   E A D E**

It's one more night in Brooklyn, Baby we're getting lost

I ain't taking you home, I found a little place that'll do

It'll never match the beauty of a Tennessee spring, but its something new

So let em say what they'll say

I'll find a way that will make it pay

It's one more night in Brooklyn, Baby that's all I can take

**D           A**

I'm tired of waiting on you, waiting on a train

**D           E**

Tired of your late night calls with the same old complaints

So pack up your bags, start looking west, but tonight

Ordering in, making damn sure we don't leave nothing behind

So baby put your hands on me

Let's get real high and just go to sleep

It's one more night in Brooklyn, Baby its just you and me

One more night
