

Die Fun

Kacey Musgraves

Do we really have to grow up
If we never do then so what
So what if I don't wanna, what if I'm just
Gonna stay drunk on all the years that I
Just wish would slow up

Chorus:

We can't do it over
They say it's now or never and all were
Ever getting is older
Before we get to heaven baby let's
Give them hell, might as well
Cause we don't know when we're done
So let's love hard, live fast
Die fun

Let's put a little more in your glass
Walk around and spend all our cash
Just let me grab my poncho
I don't care where we go
If we speak the language you know
We don't even have to come back
