A E A

Verse

As hard and as cruel as can be

She moves away from me

Still I need to be hers every time

With all that I can be

She calls in the deep of the night

She takes all Iâ€™ve got from me

So I canâ€™t go on

Chorus

Every longing, every wisper

Every song that never saw it coming

Baby donâ€™t you know itâ€™s not alright..

Every cold night, every shiver

Every silent stream that she never listens

Itâ€™s not alright, not alright no no

Verse

She rides with the gods of the night
She moves the tides in me
She crushes the waves with her thighs
She always comes a part of me
But carries as sharp as a knife
How could she step away from me
How can you just walk away from me

Chorus

Every cold night, every wisper
Every silent scream but never listen
When you say its all right
Its not allrightâ€|no no
Every last song, every shiver
Every dirty game when just isnâ€™t right
It just isnâ€™t right..

Verse

She wakes up the dawn of the day
She takes my heart from me
Leaves me with nothing to say
Nothing left for me
With the fever of final goodbye
She spins away from me
So I canâ€™t go on, I canâ€™t go on
