[Verse]

I am a hawk on a mountain side
A crashing wave on a winter s tide
The breeze that blows on a tall ship s sail
I am the kick of a salmon s tail

[Verse]

I m up above and I m down below
I m black and white, I m sand and I m snow
I m all around and I live within
I m mother earth, the spirit in all living things

I m winter white, oh, I m autumn gold
I m summer s bloom, I m spring s new soul
I m every season with the birds that sing
I m mother earth, the spirit in all living things

But you cut down the trees
Your fumes, they choke the breeze
You burn the world for oil
And you poison the soil

And return you back to dust
