Go easy fellas, it s my first bit a tab. I couldn t find many bass tabs around on the

Basically is two chords E and C. There is a bit of bass walking between chords and I

added a simple one here, but feel free to use your inspiration, and let me know if any

should be made here!!!! Happy Bassin guys and gals!!

Standard Tuning: EADG

Have a go with some effect distortion too / bass boost!!!

1.

```
G |-----|
D |-----|
A |-----|
E |--0----0--0--0--0----0--0--0--0--0-| Check your pluck timing here!!!
```

2.

```
G |-----|
D |-----|
A |--3--3-3-3-3-3-----|
E |-----5-3-2-0--0-0-0-0--| Repeat (1. and 2.) until end.
```

Listen to the CD and find a bass riff that suits your style!!!!

Hope this helps and let me know if you find any decent riffs that fill in well!!!!
