

**Julie And The Mothman**  
**Kasabian**

Great song from Kasabian, enjoy this tab

I m feeling, I m feeling good  
I m waving to the prisoners the best I could  
And there is one minute, minute a mile  
I m fucking in the alley ways, you know my style  
So come on, let s ride it you do it well  
Shed another tear for the boys in hell  
And we did El Topo, a case of rum  
Talking to your elders with a broken thumb

**A**                      **D**                      **C**                      **G**              **F**  
Ahhh Julie, Julie wanna hit you with a frying pan

**A**                      **D**                      **C**                      **G**              **F**

**A**      **G**      **A**              **D**                      **C**                      **G**              **F**
