All I know is that you re so nice,
You re the nicest thing I ve seen.
I wish that we could give it a go,
See if we could be something.

I wish I was your favourite girl,
I wish you thought I was the reason you are in the world.
I wish my smile was your favorite kind of smile,
I wish the way that I dressed was your favourite kind of style.

I wish you couldn t figure me out,
But you always wanna know what I was about.
I wish you d hold my hand when I was upset,
I wish you d never forget the look on my face when we first met.

I wish you had a favourite beauty spot that you loved secretly,
Cos it was on a hidden bit that nobody else could see.
Basically, I wish that you loved me,
I wish that you needed me,
I wish that you knew when I said two sugars, actually I meant three.

I wish that without me your heart would break,
I wish that without me you d be spending the rest of your nights awake.
I wish that without me you couldn t eat,
I wish I was the last thing on your mind before you went to sleep.

All i know is that you re the nicest thing I ve ever seen;
I wish that we could see if we could be something
