

## Take Me To A Higher Plane

Kate Nash

So I was surprised to find no tabs for this song, so I decided to try and figure it out

myself. I managed to work out the chords which Kate plays through out the whole song.

(Hopefully someone much more talented will figure out the other guitar part).

Chords: **E A** (It s mainly these chords throughout the whole song :D)

I feel worried that my brain,  
is just a fool in your sick game,  
so I will never open my heart.

I ve tried to express,  
how I feel, but it changes everyday,  
so I m finding it hard,

Let s take life, nice and easy,  
We could go, somewhere breezy,  
but it gets so complicated,  
everyone I fucking hate it,  
is in this room...

And I  
need to get away  
and I  
I can t escape, I cant escape  
and I was thinking today  
that I should think of taking my  
la la la haha la ha la haa  
my li aha hahahah aha a hahaha aaaiife  
to a higher plane x4

And I,  
Need to get away  
and I  
I can t escape, I cant escape  
and I was thinking today  
That I should think about taking my life  
my life  
To a higher plane! x3  
raghh
