

**Let Them Fly**  
**Kate Rusby**

This is one of my favourite Kate Rusby songs; This isn't the way she plays it - I couldn't be bothered to figure that out - but this seems to work just fine!

**C**                    **F**                    **G**            **Am**  
How can you speak when you don't understand,  
**C**                    **F**                    **G**            **C**  
How can you change what is altered,  
**C**                    **F**                    **G**            **Am**  
How can you help when you won't reprimand,  
**C**                    **F**                    **G**            **C**  
And how can you save what has faltered

Chorus:

**Am**                    **F**                    **C G**  
The beasts on the wing let them fly,  
**Am**                    **F**                    **C G**  
The worlds in a spin let them fly,  
**F**            **C**                    **Am G**  
And we will watch as they fall,  
**F**                    **G**                    **C**  
And try not to notice at all

**C**                    **F**                    **G**            **Am**  
How can you share what you've already spent  
**C**                    **F**                    **G**            **C**  
How can you care for the harmless  
**C**                    **F**                    **G**            **Am**  
How can you take when you have no consent  
**C**                    **F**                    **G**            **C**  
We will never be charmed by the charmless

Chorus:

**Am**                    **F**                    **C G**  
The beasts on the wing let them fly,  
**Am**                    **F**                    **C G**  
The worlds in a spin let them fly,  
**F**            **C**                    **Am G**  
And we will watch as they fall,  
**F**                    **G**                    **C**  
And try not to notice at all

**C**                    **F**                    **G**            **Am**  
How can you talk of the great and the good  
**C**                    **F**                    **G**            **C**  
When all that we hear is deceiving  
**C**                    **F**                    **G**            **Am**

How can we find what you never could  
C F G C  
Oh don't let us stop you from leaving

Chorus:

Am F C G  
The beasts on the wing let them fly,  
Am F C G  
The worlds in a spin let them fly,  
F C Am G  
And we will watch as they fall,  
F G C  
And try not to notice at all

C F G Am  
How can you speak of damnation and fire  
C F G C  
When all that we hear is misleading  
C F G Am  
We all know you speak with the tone of a liar  
C F G C  
You will never be one we believe in

Chorus:

Am F C G  
The beasts on the wing let them fly,  
Am F C G  
The worlds in a spin let them fly,  
F C Am G  
And we will watch as they fall,  
F G C  
And try not to notice at all
