[Verse 3]

```
C
                    Am
Oh baby I have been here before
I ve seen this room and I ve walked this floor
You know I used to live alone before I knew you
And I ve seen your flag on the marble arch
And love is not a victory march
       G
                     Em
It s a cold and it s a broken Hallelujah
     F
                Am
                            F
                                       C G C
                                                 Am
                                                     C
                                                         Am
Hallelujah, Hallelujah, Hallelujah
[Verse 4]
           C
                              Am
Well there was a time when you let me know
What s really going on below
But now you never show that to me do you
And remember when I moved in you
The holy dove was moving too
                  Em
And every breath we drew was Hallelujah
                Am
                                       CGC
                                                 Am
                                                          Am
Hallelujah, Hallelujah, Hallelujah
[Verse 5]
                      Am
Well maybe there is a God above
     C
                  Am
But all I ve ever learned from love
Was how to shoot somebody who outdrew you
And it s not a cry you that hear at night
It s not somebody who s seen the light
                      Em
It s a cold and it s a broken Hallelujah
                Am
Hallelujah, Hallelujah, Hallelujah
                Am
                                        C G C
                                                  Αm
                                                          Am
```

Hallelujah, Hallelujah, Hallelujah
