Kate Voegele

Intro: **G C Em D**

Verso 1:

G C
The city sleeps
D G
So silently
C D G
Wish I could say the same for me
C D G
But I ve got this dead ended street
C D
To keep searching for
Am C D
A tunnel underneath the bitter truth
Am C D
Or a bridge invisible I won t fall through

Refrão:

C D
And I don t know how much I can keep
G Em
Letting you unravel me
Am D G
Cause the more you learn the more we share
C D
We were worlds apart and you see
G Em
It was so much easier to be
Am D G
Cause now I know what we can t have and it s so unfair

(**D**)

Verso 2:

G
I never meant
C D G
Most of those pretty words I said
C D G
But I wanted you to think I did
C D G
Cause telling you all this makes no difference, oh
C D
It s useless, oh
Am C D
Cause those who get to know our hearts the most

Am C D
They always seem to be the ones we ll never hold

Refrão:

C D
And I don t know how much I can keep

G Em
Letting you unravel me

Am D G
Cause the more you learn the more we share

C D
We were worlds apart and you see

G Em
It was so much easier to be

Am D G
Cause now I know what we can t have and it s so unfair

Ponte:

Am Em
Can t you see it s destroying me?

C D
I can t stand the closeness, oh

Am Em
But don t you dare go avoiding me

C D
It kills me and yet it keeps me going

Refrão:

C D
And I don t know how much I can keep

G Em
Letting you unravel me

Am D G
Cause the more you learn the more we share

C D
We were worlds apart and you see

G Em
It was so much easier to be

Am D G
Cause now I know what we can t have and it s so unfair

(C D G)
