Maybe someday you will understand

[silent with palm]

Something in me wants to reach with both hands

Am

Go over the edge and see where I land

Something in me wants to know what s out there

Am

It s something that I ve gotta do

To give it up before you even try

[silent with palm]

C **D** **Em**
It's not you it's something in me

D **Am** **Em**
If I listen to my voice
D **D7**

Em **Am**
I would stay here if I could
Em **Am**
But I know it would do no good
Em **Am** **D**
Maybe someday you will understand

G **C**
Something in me wants to reach with both hands
Am **Em**
Go over the edge and see where I land
G **C**
Something in me wants to know what's out there
Am
It's something that I've gotta do
C **D** **Em**
It's not you it's something in me

It's not you it's something in me
