Pretty easy shizz...it can all be done in 1st position. The G7 is not quite a G7, but whatever...

(Repeats **C G Am F**)

Sunlight blooms and falls through your window
There s nothing wrong with the day
I hear a creak, of letting in shadows
Let s sit and hear what they say

Dm Am G7
You and I can be quiet

Am
Sat still in the corner

Dm Am G
Let none in here but the dawn

(Long pause on **G**)
(Long pause on **C**)

(Again, repeats **C G Am F**)
I wish I was tired but sleep has gone walking
And your talking has no aim
But just as you are
Let s just sit looking I know we can see things the same

Dm Am G7
Eyes in space colored trace

Am
None to catch us

Dm Am G

As the night slides away

(Hold on **G**)

(Repeats **C G Am F** x 2)

(Again, repeats **C G Am F**)

I hear Daryl s voice come through the wall

Sweet talk is under her head

To lie with a man might keep me together

I hope I never say that again

Dm Am G7

For my one is the one

Am

Who ll never be found

G

G

Like some queens crown in the sand

....go ride a bike
