Stranger

Song By Katie Costello

**Am / C**

Stranger I ve known you for so long

**Am / Em**

I found you lost with a compass in the fog

**Am / C**

Stranger you know me too much

**Am / Em / D**

Illusionary-self had not be touched, until you

**Am / C**

Humming Hallelujah in the dark

**Em / G / D**

Whispered poems leave you to be

**Am / C**

Humming Hallelujah in the night

**Em / G / D**

The sun might rise, as sometimes does it fall

**Am / G / D**

Hallelujah, hallelujah

**Am / C**

Stranger you ve followed me so far

**Am / Em**

Until the roads converged, as did the stars

**Am / C**

Stranger the moon looks blue tonight

**Am / Em / D**

Your photo framed, raw within my mind, but not tonight

**Am / C**

Humming Hallelujah in the dark

**Em / G / D**

Whispered poems leave you to be

**Am / C**

Humming Hallelujah in the night

**Em / G / D**

The sun might rise, as sometimes does it fall

**Am / G / D**

Hallelujah, hallelujah, hallelujah, hallelujah
