G Em C D

If i could live one day in your shoes, To know exactly what it s like to be
you, To know al the problems you go throug,
To be you.

I d like to live your live for a while,
To truly understand what makes you smile,
to share in akk your joy, all of me, all of you!

What are you thinking?
What s you perspective?
All of your hopes and all your dreams,
Finding a way to understand you, sharing a love thats truly real.

I knoe we don T always agree, bu without you where would i be,
I want to spend time, knowing ehat it s like, to be you
Chorus

Let you know that everything will be ok
