

All In My Head
Katie Melua

Am **G**
Every night we fall into bed, but it s all in my head.
F **G** **Am**
Every night we fall in a heap, and you kiss me to sleep.
Dm **Am**
And baby all the sleepy things you say,
G **F**
Blow me away, till the next day,
Am **G** **Am**
When I find what we did and we said, was all in my head.

Am **G**
Every night you whisper to me, this always will be.
F **G** **Am**
Every night you smooth down my hair, but you re not really there.
Dm **Am**
And darling it seems as if we know,
G **F**
Our love will grow, and then the next day,
Am **G** **Am**
I find what we did and we said, it was all in my head.

F **G** **Am**
Drowsy, drinking, I keep thinking,
F **G** **Am**
We re not far apart.
F **G** **E** **Am**
Scared of waking, lonely, aching,
F **G**
Just me and my hopeless heart.

F **G** **Am**
Sleeping soundly, your arms around me.
F **G** **Am**
Through the night we cruise,
F **G** **E** **Am**
Then I find it s in my mind,
F **G**
That you stroke away my blues.

Am **G**
Every night we fall into bed, but it s all in my head.
F **Am**
Every night we fall in a heap, and you kiss me to sleep.
Dm **Am**
And baby all the sleepy things you say,
G **F**

Blow me away, till the next day,

Am

G

Am

When I find what we did and we said, was all in my head.

F

Am

It was all in my head, it was all in my head.
