GHOST TOWN " Katie Melua

Tabbed by: Kengus

I think this covers the basics of the chords for this one. The first F# in the chorus may be a F#/C# or something, other than that it s pretty accurate. Have fun.

Standard tuning

INTRO

G#m E C#m x2

VERSE1

G#m E C#m
The thing that makes me feel the most down
G#m E C#m
Is the feeling that I m living in a ghost town
E F#
Barn door bangin in my face
E F# G#m
Like tumbleweed, I m rolling round this place

VERSE2

G#m E C#m
I see you arriving at the station
G#m E C#m
But it s only in my imagination
E F#
So I m begging on my knees
E F# E
Turn around, and save me, baby, please

CHORUS

B F#
From this ghost town
C#m G#m C#m F#
I feel like giving in, since you left I m living in
E F# B
An old ghost town

VERSE3 (chords as in verse2)

Hey kid, I remember all the laughter
Especially when we woke the morning after
Why did you have to go away
Leaving me to wander every day
