Wide Awake
Katy Perry

    Capo on 3rd

[Verse]

```
        Em          G D A
I m wide awake
        Em          G D A
I m wide awake
           Em
I m wide awake
             G
Yeah, I was in the dark
      D
I was falling hard
         A
With an open heart
           Em
I m wide awake
           G                D        A
How did I read the stars so wrong
          Em
I m wide awake
             G
And now it s clear to me
          D
That everything you see
             A
Ain t always what it seems
          Em
I m wide awake
              G              D      A
Yeah, I was dreaming for so long
```

[Pre-chorus]

```
            Em
I wish I knew then
            G
What I know now
              D
Wouldn t dive in
            A
Wouldn t bow down
         Em
Gravity hurts
             G
```

```
You made it so sweet
            D
Till I woke up on
          A
On the concrete

[Chorus]

Em          G        D      A
Falling from cloud 9
Em          G        D      A
Crashing from the high
      Em        G      D      A
I m letting go tonight
            Em          G          D        A
(Yeah I m) Falling from cloud 9
            Em
I m wide awake
            G
Not losing any sleep
              D
I picked up every piece
            A
And landed on my feet
        Em
I m wide awake
            G                D              A
Need nothing to complete myself - nooohooo
            Em
I m wide awake
            G
Yeah, I am born again
          D
Outta the lion s den
                    A
I don t have to pretend
                Em
And it s too late
            G                D            A
The story s over now, the end

[Pre-chorus]

            Em
I wish I knew then
            G
What I know now
            D
Wouldn t dive in
            A
Wouldn t bow down
```

```
        Em
Gravity hurts
               G
You made it so sweet
           D
Till I woke up on
        A
On the concrete

[Chorus]

Em        G       D      A
Falling from cloud 9
Em        G       D      A
Crashing from the high
    Em        G D      A
I m letting go tonight (yeah, I m letting go)
      Em        G       D       A
I m Falling from cloud 9
Em          G
   Thunder rumbling
D           A
   Castles crumbling
Em      G             D       A
   I am trying to hold on
Em            G
   God knows that I tried
   D   A
Seeing the bright side
     Em      G        D       A
But I m not blind anymore...
         Em   G  D  A
I m wide awake
         Em   G  D  A
I m wide awake

[Chorus]

       Em  G   D          A
Yeah, I m Falling from cloud 9
Em     G       D       A
Crashing from the high
Em        G       D         A
You know I m letting go tonight
Em      G       D      A
I m Falling from cloud 9
          Em            G       D       A
I m wide awake
          Em            G       D       A
I m wide awake
          Em            G       D       A
```

```
I m wide awake
        Em              G       D       A
I m wide awake
        Em              G       D       A
I m wide awake

I m wide awake
        Em              G       D       A
I m wide awake
        Em              G       D       A
```
