

Tabidachi No Hi Ni On The Day Of Departure
Kawashima Ai

This is a very beautiful song by Ai-chan. This song is usually played on the final/graduation day in school.

Please note that I DID NOT figure out these chords myself. I figured them out watching the kid playing from this video (it took me more than 1.5 hours to complete it so I deserve something also...don't I!):

Thanks to that kid (even though I assume HE got the chords from some other source too ;p).

However, I've added one or two tweaks to make them a bit more natural.

Since this is my very first post in Ultimate Guitar, be kind with those replies/comments. Please share your thoughts (and corrections, if any) through the comments.
