Here are the lyrics:

Lonely, why so lonely?
Why are you hiding all the time?
Don t you realise time is passing?
Down through the river bed into the tide
To be washed aside

Tired now, why so tired now?
Have you forgotten how we used to play?
Can t you lie here just a little longer?
Let s stay together and not fade away
Into the night

Come out into the light
Come out into the light
Come out into the light
Come out into the light

Tired now, why so tired now?
Have you forgotten how we used to play?
Can t you lie here just a little longer?
Let s stay together and not fade away
Into the night

Come out into the light
Come out into the light
Come out into the light
Come out into the light
