G# **C#**
You ve been watching dawn from the gutter,

It s been a stormy night, but it s almost through
G# **C#**
Friends you won t stop don t know you,
G# **C#**
Even your own eyes don t know you
G# **C#**
You think this whole world s trying to bury you
C# G# Eb
But it s not true
G# C# C# G# C#
So don t you say there s something in your core that can t be said,
C# G# Eb
(It s not true)
G# C# C# G# C#
Cause it s not true, and every atom of my heart is missing you

Well, it s okay to be scared when
You re stuck behind a door that won t open
The shadows in your dreams that are chasing you,
They re not true

So don t you say there s something in your core that can t be said
(It s not true)
Cause it s not true, and every atom of my heart is missing you

G# C#
The good will come through

G# Eb C# Eb
I wish that you could feel it the way you used to

G# Eb C# Eb
I wish you could believe it the way you used to, the way you used to
