Its Not True
Keane

Artist: Keane
Album: Strangeland
Song: It s Not True

Very easy song to play.

Intro: **G# C#** x2

```
G#                        C#
You ve been watching dawn from the gutter,
G#                  C#
Trading one bad move for another
G#                    C#
It s been a stormy night, but it s almost through
G#                   C#
Friends you won t stop don t know you,
G#               C#
Even your own eyes don t know you
G#                       C#
You think this whole world s trying to bury you
    C#     G#    Eb
But it s not true
   G#        C#            C#              G#          C#
So don t you say there s something in your core that can t be said,
 C#    G#    Eb
(It s not true)
        G#        C#            C#         G#        C#
 Cause it s not true, and every atom of my heart is missing you
```

```
|e---------------|
|B-----0-1-0-0---|
|G---2-----------|
|D---------------|
|A---------------|
|E---------------|
```

Well, it s okay to be scared when
You re stuck behind a door that won t open
The shadows in your dreams that are chasing you,
They re not true

So don t you say there s something in your core that can t be said
(It s not true)
 Cause it s not true, and every atom of my heart is missing you

```
G#    C#
   The good will come through
```

```
G#      Eb                            C#      Eb
   I wish that you could feel it   the way you used to
G#      Eb                       C#        Eb
   I wish you could believe it   the way you used to, the way you used to
```

```
        G#      Eb                            C#      Eb
           I wish that you could feel it   the way you used to
        G#      Eb                       C#          Eb
           I wish you could believe it   the way you used to, the way you used to
```
