

Myth

Keane

Keane - Myth

Verse Chords: G - D - C Cmaj7 / G - D - Am7 - Cmaj7

You built it up brick by brick
Put your heart into this faceless myth
Nurtured it like a child
And dressed its wounds when it ran wild

You stopped to fix your face
Someone else stepped in and took your place
Now everything you once knew
Is running circles around you

Pre-Chorus Chords: Bm - C - D - Am7 or C

A car door slamming in your road
It jolts you like a kick inside
A year old message on your phone
That catches you when you can't hide

Chorus Chords: C - Cmaj7 - D / Em (play high G) - D - Cmaj7
C - Cmaj7 - D / Em - Cmaj7

I see you in the service station sign
I see you in the supermarket line
I see you silhouetted on a wall
But I don't see myself there at all

[Verse]

This vessel of Balsa wood
Is the fag end tail of amoeba-hood
The busying cast confer
And get their taste of the drama

[Pre-Chorus]

You stare through mindless daytime shows
And curse yourself for growing old
The sterile scent of shaving foam
Reminds you of another world

[Chorus]

I see you in the roofless sombre sky
I see you when the lovers stop outside
I see you silhouetted on a wall
But I don't see myself there at all

I see you in the sweetness of our child
I see you in the supermarket aisle
I see you when I'm kneeling on the floor

But I canâ€™t see myself anymore

Encore: **Em** â€" **C** â€" **G** â€" **D** â€" **G** â€" **C**

Hard times got the upper hand, Stole our feeble plans

The faces, shot me, spin me round , but I wonâ€™t lie down

Hard times shake me to the bone, face bruised, bloody nose

Shell shocked, crawling on the ground, still I wonâ€™t lie down

Outro: Same as above. Lyrics are on ending **D C G** only.

No I wonâ€™t lie down

No I wonâ€™t lie down

I wonâ€™t lie down
