Well, you were happy where you were
But that girl she wheeled you in
This time was never good enough
Cause she was gone and seen everything

And if you ever spoke of love
She just smiled and put you down
Cause she was making all the plans
She had a vision of light and sound

She said the neon on the river will light my way
And everything that we've been dreaming of making real one day
So save your money pack your bags
We better run before we disappear
She took the train into the city but you're still here

You hear a song that takes you back
The song long for God tonight
And friends who said they hang your back

But they just turned them round and let you fight
