

## You Are Young

Keane

**C**  
Fearfull child, have faith in brighter days  
**F**  
Stay until this darkness fades away  
**C**  
Lie still beside me  
**F** **C**  
I ll hold you now, I ll hold you forever  
  
**C**  
Winter s hand will freeze your heart again  
**F**  
Doors will close, no time to start again  
**C** **F**  
Nothing is given, except the ties that hold us together  
  
**Am** **F**  
Lay down your load  
**Am** **F**  
cause everyday it s gonna grow  
**C**  
And bask in the sunshine  
**F** **G** **C**  
Try to pay no mind, try to pay no mind at all  
**G**  
To all the things that you don t know  
  
**F**  
You ve got time to realise  
**C**  
You re shielded by the hands of love  
**G**  
cause you are young  
  
**C**  
Fading light may make a fool of me  
**F**  
Courage fail, strength slip away from me  
**C**  
Lie still beside me  
**F**  
And hold me now and hold me forever  
  
**Am** **F**  
Lay down your load  
**Am** **F**  
Because everyday it s gonna grow

**C**  
These days are sacred  
**F** **G** **C**  
Hey now don t be scared, baby don t be scared at all  
**G**  
Of all the things that you don t know  
**F**  
You ve got time to realise  
**C**  
You re shielded by the hands of love  
**G**  
Cause you are young  
**F**  
You ve got time you ve got to try  
**C**  
To bring some good into this world  
**G**  
cause you are young  
**C**  
cause you are young  
**F**  
Oh oh oh woah  
**C**  
Oh woah oh  
**F**  
Oh oh oh woah  
**C**  
Oh woah oh  
**F**  
Oh oh oh woah  
**C**  
Oh woah oh  
Because you are young
