**F Bb C**

**F Bb**  
I know the West was won this way  
**C F**  
But God forgive the heartless way we let  
**Bb C**  
It all burn down  
**F Bb**  
I know, I know you re off on tour  
**C**  
Godspeed my love  
**F**  
I ll not be bored with all  
**Bb C**  
The mess here, now

**Bb**  
I ll allow  
**C Bb**  
My heart to get over you now  
**C Bb**  
Let yours take a generous bow  
**C**  
I ll be fine

**F**  
You ll be alright  
**Bb**  
Come and see me in the morning  
**C**  
I ll be in the sunrise  
**C**  
Hoping that it s rays don t  
**F**  
Burn a hole in my eyes  
**Bb**  
You know me, I worry  
**C**  
Could always use some pity  
**C**  
Scared to do a session  
**F**  
If it s in the city  
**Bb**  
You and I are monsters

**C**

We ll not find another

**C**

Cannot be together

**F**

Lest we eat each other

**Bb**

**C**

Don t make me leave

**F**

**Bb**

It s been about a month

**C**

And I am eating badly

Still don t cry

**F**

**Bb**

**C**

But I keep meaning to

**F**

**Bb**

I hear the crowds adore you so

**C**

But I m still here, I hope you know

**F**

**Bb**

**C**

Don t talk to them about me

**Bb**

Obviously

**C**

**Bb**

My wounds are open to see

**C**

**Bb**

But don t take them seriously

**C**

I ll be fine

**F**

And you re more than alright

**Bb**

Come and meet me in the trenches

**C**

I ll be taking cover

**C**

**F**

You can load the guns, and I ll hide behind the others

**Bb**

Always been a coward

**C**

You can ask my friends

**C**

I hide inside for hours

**F**

Always had intense eyes

**Bb**

**C**

I think I am sick but never can be certain

**C**

Still call up my mother

**F**

Hiding behind curtains

**Bb C**

Don t make me go

**F Bb C**

Don t make me go outside

**F Bb C**

God knows what out there lies

**F Bb C**

I m hoping I don t die

**F**

After you
